

**REMARKABLY SIMPLE & QUICK TO INSTALL**  
Its modular construction and practical design enables simple and seamless installation on any site or location.

**CLEVERLY DESIGNED IN AUSTRALIA**  
Designed and manufactured from the ground up in Australia using the highest quality materials and fabrication principles.

**INGENIOUS FLAT-PACK DESIGN**  
Spacecubes ingenious flatpack design features a neat and economical solution for transportation, warehousing and onsite construction.

**HIGHLY ENGINEERED & CERTIFIED**  
Engineered to the highest standards to meet the most exacting local and international design and construction standards.

**REUSABLE, ENERGY EFFICIENT & LOW CARBON IMPACT**  
Unlike many temporary building solutions, Spacecubes can be used in a range of different configurations, time and time again. So no wastage and no continuing impact on our environment.

**LIMITLESS BUILDING OPTIONS & POSSIBILITIES**  
Spacecube allows for an endless range of build options, from single stand alone units to numerous units across multiple levels.

DESCRIPTION

-A double story, modular, engineered children's playground ready for immediate deployment

PRODUCT FEATURES

Capacity of 40 children  
Integrated lighting  
Deck capacity of 25  
4.5m slide  
Multiple tunnels  
Interconnected between top and bottom levels  
Fully brandable  
Australian made and designed

TECHNICAL SPECIFICATION

6m tall  
6m wide  
4.8m deep
