

# PROJECT OVERVIEW.

**Client:** Kathmandu

**Agency:** Keep Left

What a thrill for SPACECUBE to be involved in this very cool initiative by Kathmandu, supporting mental health in Australia with Beyond Blue. Four of our modular cubes were used to create a 40m Zipline structure, which had people flying past the Sydney Harbour Bridge and Opera House. The Kathmandu store, located at one end of the structure, was fully powered by SPACECUBE's newest product range SOLAR. The entire store including lights, POS and tills were all run off-grid with solar power. Kathmandu not only donated 100 percent of ticket sales to Beyond Blue, but they also matched every entry fee, essentially doubling any funds raised. Amazing work from the team at Keep Left!

## SPACECUBES

4 x Cubes

## LOCATION

Circular Quay, Sydney.

**FLOOR AREA** 59.2 sqm

**FOOT PRINT** 44.4 sqm
