

PROJECT OVERVIEW.

Client: Te Pou

Event Base NZ designed and built Te Pou, a New Zealand themed bar and hospitality environment for America's Cup Events at the America's Cup Village. Built using 13 cubes, the double-storey structure had integrated lighting, timber look flooring and spanned 190 m² with internal and external stairs, along with amazing views of the Cup Village. Event Base installed the cubes in less than two days on site, as well as delivering the timber decking and Kiwiana themed branding.

SPACECUBES

13 x Cubes

LOCATION

Auckland Viaduct, New Zealand

FLOOR AREA 190 m²

FOOT PRINT 103.6 m²
